WHY COFFEE?

Coffee is the 2nd largest commodity in the United States (oil is the 1st !). Coffee is consumed by 165 million people in the United States. By purchasing Café Excellence through you, people will receive high quality specialty coffee – because it is ROASTED FRESH for your order and at prices competitive with national grocery chains. Fresh-roasted coffee can be easily stored, requires no refrigeration and customers will appreciate being offered a quality product they can enjoy daily.

Those that buy multiple bags of coffee need not worry about freshness – if unopened, the ***freshness shelf life is one year!***

THE COFFEES?

Café Excellence coffees are 100% Arabica beans grown 2500 feet above sea level, earning the distinction, “specialty coffees.” Among them are blends that consist of Panamanian, Kenya AA, Brazilian Santos, and High Grown Mexican, each hand-picked and brewed to satisfy even the most discriminating tastes.

WHY CAFÉ EXCELLENCE?
